

Acopian BirdSavers
(a.k.a. Zen Wind Curtains)

Prevent birds
from flying into
windows.

- ▶ Very elegant solution.
- ▶ Very simple design.
- ▶ It works!

Commercial BirdSavers Technical Data Sheet

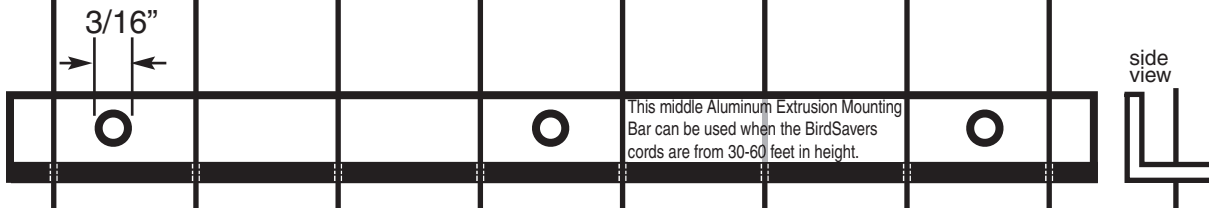

Top Aluminum Extrusion Mounting Bar

(Typical Aluminum Extrusion: 1/2" x 1/2" x 1/20")

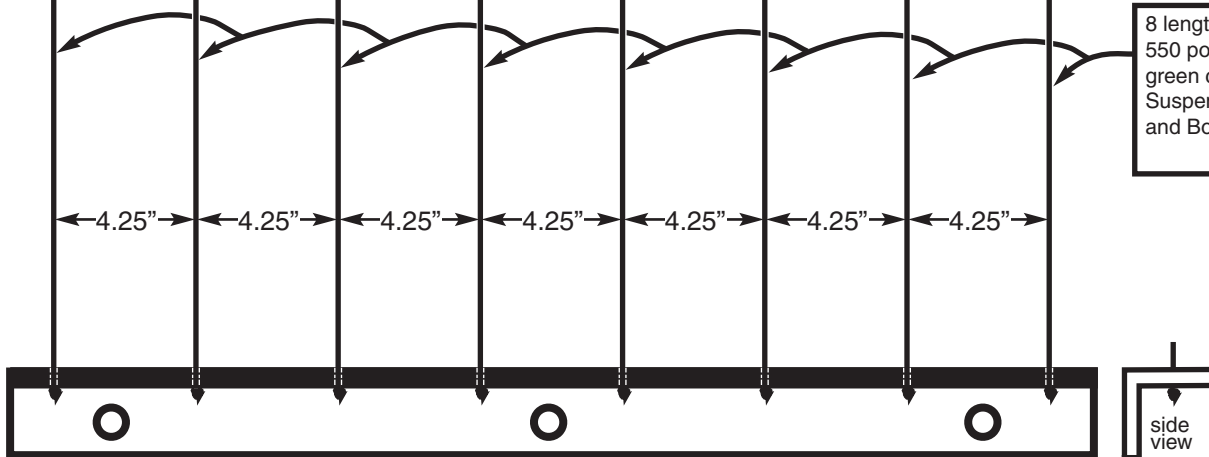

Typically, BirdSavers are attached to the building using #8 x 5/8" Hex-head, Self-Drilling Stainless Steel Screws, or a similar type stainless steel screw. Alternatively, VHB tape can be used.

The number of Mounting Holes depends upon the width of the Aluminum Extrusion Mounting Bar. Shown on this Data Sheet is an 8-cord BirdSaver; there are three Mounting Bars, with three Mounting Holes on each Mounting Bar.

8 lengths of 1/8" dia, 550 polyester, dark olive green colored paracord. Suspended between Top and Bottom Mounting Bars.

Bottom Aluminum Extrusion Mounting Bar

(Typical Aluminum Extrusion: 1/2" x 1/2" x 1/20")
